Special Advisory for Heavy Rain, Strong Wind and Rough seas

Issued by the Natural Hazards Early Warning Centre

At 01.30 p.m. 09 December 2019 for the period until 01.30 a.m. 10 December 2019

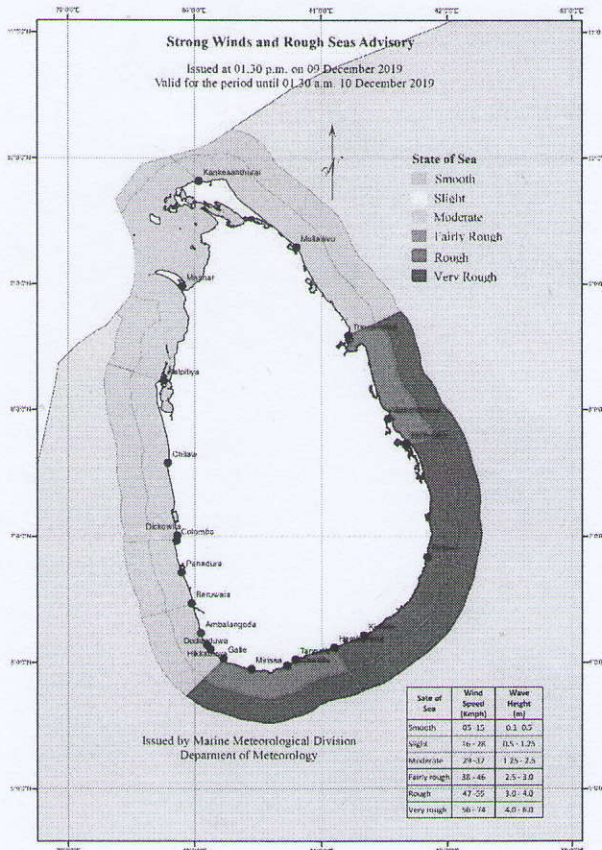

For the south-eastern, Eastern and southern sea areas

PLEASE BE AWARE

Due to a low level atmospheric disturbance in the southeast of Sri Lanka, showery and windy condition expected to enhance in the south-eastern, Eastern and southern sea areas.

Accordingly, active clouds can develop in the deep and shallow sea areas off the coast extending from Vakaraia to Matara via Batticaloa, Pottuvil and Hambanthota. Therefore, the possibility for heavy thundershowers and sudden roughness, associated with sudden increase of wind speed (up to 70-80 kmph) in the above given sea areas is high.

Naval and fishing communities are requested to be vigilant in this regard.
